SUMMARY:

GO GREEN CLUB of the college arranged TREE PLANTATION for the students and GO GREEN volunteers of the college **04.08.2022**. 50 students, 5 staffs and volunteers participated and benefitted from the programme.

The AVS College of Arts & Science, Salem-636106 GO GREEN CLUB Organized Tree Plantation on **04.08.2022**. Our Students & Staff participated various activities. Tree planting is the process in which tree seedlings are transplanted generally for forestry, land reclamation, or landscaping purposes. Tree plantation is a process where a large number of trees or seedlings are planted for land reclamation or landscaping. Planting large numbers of trees helps to purify the polluted air that we breathe in. Plants play a big role in our ecosystem by maintaining a balance among all the elements that are present in nature.

SUMMARY:

GO GREEN CLUB of the college arranged SAPLING DISTRIBUTED for the students and GO GREEN volunteers of the college **15.08.2022**. **60** students, 5 staff and volunteers participated and benefitted from the programme.

The AVS College of Arts & Science, Salem-636106 GO GREEN CLUB Organized Sapling Distribution on 15.08.2022. Our Students & Staff participated various activities. Sapling distribution represents life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health. Plants play a big role in our ecosystem by maintaining a balance among all the elements that are present in nature..

SUMMARY:

GO GREEN CLUB of the college arranged SEED BALL PREPARATION DRIVE for the students and GO GREEN volunteers of the college 25.08.2022 80 students participated and benefitted from the programme.

The AVS College of Arts & Science, Salem-636106. GO GREEN CLUB arranged seed ball preparation drive on 25.08.2022. Our Students & Staff participated various activities. Seed balls are used to replant areas where the natural flora has been destroyed. The seed is sown on top of the soil, so it may get dried out by the sun, blown away by strong winds, washed away by rains. The moisture in the clay of the seed ball helps the seeds to germinate. In the case of aerial reforestation, planes are used to distribute seed balls over large inaccessible areas such as mountain tops.

SUMMARY:

GO GREEN CLUB of the college arranged SEED BALL PREPARATION DRIVE for the students and GO GREEN volunteers of the college 16.09.2022. 15 students participated and benefitted from the programme.

The AVS College of Arts & Science, Salem-636106. GO GREEN CLUB Conducted Street Play on 16.09.2022. Our Students & Staff participated various activities. The International Day for the Preservation of the Ozone Layer or World Ozone Day is celebrated every year on September 16 to highlight the importance of the ozone layer and raise awareness among the people about the harmful effects of ozone depletion. The day acts as a reminder about the need to protect the ozone.
